ATONE INTRODUCES DR JUAN ROMERO COSMETIC PHYSICIAN

Atone welcomes Dr Juan Romero who is a qualified medical practitioner. He has worked in both the public hospital system in Australia and the USA whilst doing his surgical training, and more recently in private practice as a general practitioner in Victoria. He started practicing cosmetic medicine in 1998 after looking in to the area and seeing the potential it held, a decision that he has never looked back from.

Juan is a director and founding member of Anti-Aging Cosmetic and Laser and a Member of Cosmetic Physician Society of Australia. He regularly attends clinical training courses and meetings and is responsible for the training of other cosmetic practitioners.

Juan is an accredited injector and official trainer for Allergan. Juan is very passionate about cosmetic medicine – “The possibilities it offers both males and females are endless. The thrill you get from making a client happy with their results is why I really do love what I do.”

Juan will be consulting at Atone by appointment only. Call 93267160 to book your initial consultation and let Dr Juan work his magic...
